Pharmacy is constantly evolving and opportunities are constantly developing. This provides exciting new roles for pharmacists, which I am passionate about and I am always willing to take on a challenge. I have the key qualities to fulfil this role including being self-motivated, having good communication and problem-solving skills, as well as being approachable, honest, and a willing learner.

### **Achievements**

- Flu Season 2019-2020 – Last year we had a target of 500 vaccines to perform. When the season ended, I had vaccinated just over 660 patients. We finished in the top 32 branches in the company leader boards. This is one of my best achievements to date, having the time management skills to perform a huge amount of vaccinations, while still having to carry out my daily tasks. I was able to delegate certain parts of the patient's journey, to enable me to make the most of my time.
- Staff budgeting – When I joined my current role, my staff budget was 151 hours a week. I took over the branch when it had over 200 hours. I was able to manage the branch to becoming well organised, after losing the hours required to bring the hours down to what was required. We now can work comfortably, showing that I can motivate and lead a team even when resources have been lost. This was shown by receiving company audit scores of 85% and 87.5% in the last year.
- In my past two current roles, I oversaw the changing of operating system on computers. This was a huge task, with 12 weeks build up prior. I had to plan each week and make sure the branch kept up to the tasks set, to ensure a smooth changeover. Learning how to use the system and ensuring all staff were up to date with their online learning was also pivotal. Taking all this into account, I was extremely proud with the way the changeovers went.
- In my role as store pharmacist (see below) I joined a branch which was losing prescription items, had an incorrect staff skill mix, and had lost the trust of the public. In the first year, we managed to completely turn the fortunes of the branch around. Raising it to 4<sup>th</sup> in the region. We retrained the staff, improved the customer service of the branch, and rebuilt relationships with local GP surgeries. These all also led to an increase in items, helping us to a high position in the league tables.
- Medicine use reviews – Target each year is 400. I have met this target without fail every year.

### **Education**

2009-2013	<u>University Of Manchester, School of Pharmacy</u> <i>Graduated with a 2:1 MPharm</i>
2007-2009	<u>Notre Dame Catholic Sixth Form College</u> <i>A Levels: Maths (A), Biology (B), Chemistry (B)</i> <i>AS Level: Psychology (A)</i>
2002-2007	<u>Ralph Thoresby High School</u> <i>12 GCSEs at grade A*-C (including English, Maths and Science)</i>

## Other Qualifications

- Safeguarding Level 2
- First Aid - Emergency Aid

## Employment History

04/2019 – Present	<u>Pharmacy Store Manager – Well Pharmacy, Harrogate</u> Having proved myself over a number of years to be a brilliant worker and strong leader, I progressed my career by taking on a manager role at the company. I now have added responsibilities such as organising staff rotas, health campaigns, overseeing SOP completions and ensuring the store is compliant with GPHC regulations. We have also recently changed over computer operating systems, which I oversaw, showing my computer skills and ability to adapt to a new environment. I have also shown the willingness to take on board the new pharmacy quality payments scheme, which included performing clinical audits, risk management tasks and completing various patient safety reports.
06/2015 – 04/2019	<u>Store Pharmacist – Well Pharmacy, Lincoln Green, Leeds</u> With the experience and knowledge I acquired I felt it was the right time to put all my efforts into facilitating a pharmacy to allow it to reach its maximum potential. Working in a problem branch was something I was motivated for and up for the challenge. The pharmacy now dispenses over 7500 items a month with over 50 daily substance misuse patients, developing my prioritisation skills vastly. Being at the same pharmacy day in day out has meant that I have developed close relationships between both the patients and the local medical centres. This meant that patients and prescribers often ask my advice which is highly rewarding. In the first year we managed to turn the fortunes of the branch around, raising it to 4 <sup>th</sup> in the region. Achieving targets is something I take very seriously, which is shown by administering over 150 flu vaccinations in the 2017/2018 flu season.
08/2014 – 06/2015	<u>Locum Community Pharmacist</u> After qualifying I decided to become a locum Pharmacist for a year working in and around the West Yorkshire area. I gained a vast amount of experience from my time as a community pharmacist, working for many different companies and in different environments. This proves that I am adaptable to various teams and act responsibly as the manager successfully for that particular day and have received positive feedback. I am also confident in communicating with GPs to ensure safe prescribing. I clearly understand all the laws and ethics seen in pharmacy and have good problem solving skills.
07/2013 – 07/2014	<u>Lloyds Pharmacy, Rockwell Lane, Bradford</u> <i>Pre-registration placement (52 weeks)</i>
06/2012 – 07/2012	<u>Lloyds Pharmacy, Yeadon, Leeds</u> <i>Summer Placement Programme (6 weeks)</i>

### **Additional Skills and Interests**

Languages	I have studied Arabic (which I am fluent in), French and German up to GCSE level. My bilingual skills are advantageous as they allow me to communicate with a wider variety of people.
Computing	I am fully competent with Microsoft Office and have always had a passion for computing so I am confident I can easily learn new systems or software.
Hobbies	I have many interests that I like to pursue in my spare time. I play football for my community team on a weekly basis and play tennis frequently.
